

## DEAD MAY EXCEED A THOUSAND

### Coroner Believes San Francisco Dead Will Number More Than One Thousand

## NAMES OF KILLED GIVEN

### Partial List Of Dead Completed--Hundreds of Others Will Never Be Identified--Horrors are Beyond Description--Health of People Good-

SAN FRANCISCO, April 24.—Coroner William Walsh estimates that the total number of dead will not be less than 1000. His reports are complete, and his estimate is made up from all the data he has been able to collect. Coroner Walsh said:

"Bodies that the Deputy Coroners have found and buried number 300, as follows.

"At Polk and Bay streets, thirty-two at Portsmouth Square, 23; at Washington Square, 12; at the Six-Mile House, 200; at Laurel Hill, 23; scattered in different parts of the city, 10.

"No thorough search has been made of the district south of market street or the Chinese quarter. Many lives must have been lost in these sections. **Dead May Exceed 1000.**

"South of Market street are the cheap lodging-houses, and many of these collapsed from the earthquake. There is little chance that half of the inmates of the collapsed buildings had opportunity to escape. This is also true of Chinatown.

"Shortly after the earthquake soldiers and police, so I have been told buried bodies found along the water front. I have received no official report of these.

"The total number of dead will undoubtedly reach if it does not exceed, 1000."

Here is the latest revised list of the dead.

Besides these sixteen unidentified persons were buried under the supervision of Dr. Gamble, two of them being Italians found in the building of the Eastern Fish Company.

Although this report very materially reduces the death list of San Francisco it is not believed it will be further increased save by isolated victims among the ruins.

GREELY, Major-General.

To Repair St. Francis.

SAN FRANCISCO, April 24.—The San Francisco representative of the Associated press and William Dohrman, auditor of the Hotel St. Francis today examined the great building. The interior resembles a dead furnace and the intense heat is shown by the melted glass and metal objects. The walls have not shrunk however, and the building can be repaired. There are a few cracks in the towering walls. The annex in course of construction is uninjured.

The vaults containing the safety deposit boxes are intact. It is believed \$100,000 will restore the city.

Restoring the City. SAN FRANCISCO, April 24.—Telephonic communication with Oakland is restored. The company had eight hundred men at work today. A 25-wire cable was laid along Market street in the cable slot. Only 8,000 subscribers are left of 50,000. The only vessel allowed to leave port was the big freighter bound for Hamburg and the shipping business is at a standstill. The San Francisco gas and electric company has a small army of men at work. The United railway has men clearing its tracks and erecting poles along Market street. Coffee and sugar are wanted. Other provisions are plentiful. Meat is being sold at normal prices. Dr. Ward, president of the state board of health states there is less communicable disease in the city than at any time during the past seven weeks. He will issue a daily health bulletin. Chairman Phelan reports contributions to the relief fund from outside, \$1,917.00. Local, \$340,000 total \$2,263,000. The steamer Shasta loading 200 tons of general supplies and another large steamer are expected during the day. A steamer is due from Seattle with \$1,000 tons of supplies.

### REVOLTING CRIME OF MURDEROUS THUG.

COLORADO SPRINGS, April 24.—Miss Loda, a San Francisco fugitive passed through en route Chicago. She says that while laying unconscious on the floor of the lobby of the hotel St. Francis three fingers of her left hand were cut off and robbed of the rings thereon.

ANNAPOLIS, Md. April 24.—President Roosevelt and many prominent men attended the re-interment of Paul Jones' body today. Roosevelt spoke saying: "On behalf of the American people I wish to thank our ancient ally, the great French nation, that proud and gallant nation, to whose help we once owed it that John Paul Jones was able to win for the Stars and Stripes the victory that has given him deathless fame, and to whose courtesy we now owe it that the body of the long dead hero has been sent hither, and that to commemorate the reception of the illustrious dead a squad of French warships has come to our shores. The annals of the French navy are filled with the names of brave and able seamen, each of whom counted death as a mistress when the honor of his flag was at stake; and among the figures of these brave men there loom the larger shapes of those who, like Tourville, Duquesne and the Balli de Suffren, won renown as fleet admirals inferior to none of any navy of their day in material powers. In addition to welcoming the diplomatic and official representatives of France here present, let me also express my heartiest acknowledgments to our former ambassador to Paris, General Horace Porter, to whose zealous devotion we practically owe it that the body of Paul Jones has been brought to our shores. Brilliant Record. "The history of our navy like the history of our nation, only extends over a period of a century and a quarter, yet we already have many memories of pride to thrill us as we read and hear of what has been done by our fighting men of the sea, from Perry and Macdonough to Farragut and Dewey. These memories include brilliant victories, and also, now and then, defeats only less honorable than the victories themselves but the only defeats to which this praise can be given are those where, against heavy odds, men have stood to death in hopeless battle. It is well for every American officer to remember that while a surrender may or may not be defensible, the man who refuses to surrender need never make a defense. The one fact must always be explained; the other needs no explanation. Moreover, he would not win glory and honor for his nation and for himself, must not too closely count the odds; if he does, he will never see such a day as when Cushing sank the Albatross. Fight To the Last. "In his fight with the Serapis, Jones ship was so badly mauled that his opponent hailed him, saying "Has your ship struck?" To which Jones answered, "I have not yet begun to fight." The spirit which inspired that answer upbore the man who gave it and the crew who served under him through the fury of the battle, which finally ended in their triumph. It was the same spirit which marked the commanders of the Cumberland and the congress when they met an equally glorious though less fortunate fate. "We have met today to do honor to the mighty dead. Remember that our words of admiration are but as sounding brass and tinkling cymbals if we do not by steady preparation and by the cultivation of soul and mind and body fit ourselves so that in time of need we shall be prepared to emulate their deeds. Let every midshipman who passes through this institution remember, as he looks upon the tomb of John Paul Jones, that while no courage can atone for the lack of that efficiency which comes only through careful preparation in advance through careful training of the men and careful fitting out of the engines of war, yet that none of these things can avail unless in the moment of crisis the heart rises level with the crisis. The navy whose captains will not surrender are sure in the long run to whip the navy whose captains will surrender unless the inequality of skill or force is prodigious. The courage which never yields can not take the place of possession of good ships and good weapons and the ability skillfully to use these ships and these weapons but its presence will often atone for many other shortcomings, and if with it are combined the other military qualities, the fortunate owner becomes literally invincible."

### City One Vast Camp.

SAN FRANCISCO, April 24.—Within a day or two a model camp will be in operation at the Presidio. It is one immense tented city. Food will be distributed regularly to each tent. There has been enormous abuse of free clothing and food provisions, whole families being lined up several times each day. In this way some families accumulated stocks of provisions for many weeks. Now only eight thousand people are on the reservation where a few days ago, were thirty thousand who have now vacated the tents and moved to other encampments. There will soon be sufficient tentage for 180,000 people in the city.

### Hospitals Crowded.

SAN FRANCISCO, April 24.—The emergency and maternity hospital located at 1730 Filmore street, attended to sixty eight cases today. H. Finch a member of the firm of Will & Finck aged 78 was brought to the hospital in a state of collapse and died.

### Bodies Are Found.

SAN FRANCISCO, April 24.—The bodies of three men and one woman were found in the ruins today. One was identified as John Hines.

### White City of Tents.

SAN FRANCISCO, April 24.—In Golden Gate Park have arisen shelter for 4,000 people and no millionaire in the land has a more magnificent setting for his mansion than those waifs of the great fire. Still some are tenting on the grounds and still there is lack of bedding, but probably enough will reach here in twenty-four hours and people now show more desire to remain in the city and help rebuild. The city especially needs more merchants and laborers, and many announce their intention of staying.

### At a joint meeting of the finance committee and the chairman of all the emergency committees it was ascertained the loss of life was less than three hundred and general surprise was expressed. The Southern Pacific officials are busy opening a temporary office today. Representatives of all the western roads have decided not to remove their offices from the city even temporarily. A reconstruction of the ferry building was begun today.

### PRESIDENT SIGNS RESOLUTION WASHINGTON, April 24.—President Roosevelt tonight signed the joint resolution passed by congress today appropriating \$1,500,000 additional for the San Francisco Sufferers.

## REMAINS OF PAUL JONES INTERRED AT ANNAPOLIS

### Body of the Famous American Admiral Laid in Its Final Resting Place Amid Appropriate Ceremonies--Prominent Men Attend.

## PRESIDENT ROOSEVELT MAKES GREAT SPEECH

### DELIVERS NOTABLE EULOGY ON GREAT AMERICAN ADMIRAL, AND PRAISES DEEDS OF AMERICAN NAVY--PREFER DEATH TO SURRENDER--FRENCH ADMIRALS RECEIVE MEED OF PRAISE FOR DEEDS.

ANNAPOLIS, Md. April 24.—President Roosevelt and many prominent men attended the re-interment of Paul Jones' body today. Roosevelt spoke saying:

## MANY SMALL TOWNS NEAR BAY CITY SUFFER DAMAGE

SAN FRANCISCO, April 24.—A representative of the Associated Press made a tour of the county and reports severe damage in many places, but no death by the earthquake. Redwood City is the most damaged but people are sending assistance from San Francisco, San Carlos and Belmont are but slightly damaged. Considerable damage occurred at San Mateo. The Southern Pacific Depot was partly wrecked and all wires are down. The railroad tracks have sunk six feet. St. Patrick's seminary and the country homes of the wealthy San Franciscans as the Floods, Nichols and others are seriously damaged.

## SAN FRANCISCO FREE FROM ALL CONTAGIOUS DISEASES

SAN FRANCISCO, April 24.—Dr. J. D. Ward chairman of the health committee at a meeting of the general committee today said: "The city is free from contagion than it has any right to expect under the circumstances. There is actually a less number of cases than a month ago. The sanitation of the city is absolutely under control.

Alarmist reports emanating from a certain source here, may lead to an embargo on refugees and one calamity already endured is great enough without additional and unwarranted distress." Ward's remarks were greeted with applause and at once supplemented by a motion that the Associated Press disseminate this report.
